

VON ARDENNE 

PHYSICS LAB TECHNICIAN

TRAINING

STRONG CHARACTERS FOR THIN LAYERS

Physics Laboratory Assistant

Before our vacuum coating systems do what they are supposed to, many technical and technological tests are required. Are you curious and like to solve tricky tasks? Your inventive talent is needed! Help ensure that our equipment always functions properly.

As a leading international manufacturer of coating equipment, we are looking for talented and dedicated trainees.

Our training is aligned with the needs of our company. It is our goal to employ good trainees as skilled workers after they have passed their final examinations.

€ 150
